This is a bulk storage facility in Sewaren, NJ. The wind knocked over a storage tank at the facility that had been partially emptied before the storm. The remaining oil discharged into the Arthur Kill. This is a Coast Guard lead and NJDEP is also on-site. We have offered assistance. The Coast Guard PIO is Russell Tibbets, (b) (6).

Subject: NPR Request

Liz Shogren with NPR is asking to interview any EPA officials who are involved in the response to the Motiva Spill related to hurricane Sandy.

We're working to get more info from our R2 office on this, but wanted to make sure this is on your radar.

Subject: Fw: CNN Interview Request- Anderson Cooper Special

All,
Our Regional Administrator in New York received a request to appear on Anderson Cooper today to talk about storm impacts on water. She declined due to scheduling reasons and they have now come back and asked her to do 3 -5 minutes on the phone. Happy to refer them to you at FEMA and provide talking points. Let me know what guidance you have on this.

Subject: CNN Interview Request- Anderson Cooper Special

Good afternoon Judith!

CNN is airing a dayside special today anchored by Anderson Cooper and focusing on Super storm Sandy.

We're hoping you can join Anderson today to chat about the issue of the water impact as a result of the storm. Issues like concerns over standing water, how is it cleaned, chances for diseases etc are some of the issues we would like to examine with him.

Please let me know if you are available join Anderson live for about 5 minutes at 3:45 pm et today.

Feel free to contact me via email or at (b) (6) to let me know.

Thanks!

To: Lehigh, Matt
Subject: Steven VanRoekel for a story on fiscal cliff uncertainty for agency CIOs

Hey Matt –

Not sure if he falls in your area as well, but I'm hoping to chat briefly with Steve for a story about fiscal cliff uncertainty making things hard for agencies as they do their budgeting, planning, and the like for IT. And more broadly, the extent to which we're in a culture shift of sorts that requires agencies to do more with less and/or work with private sector entrepreneurs to innovate, etc.

Sent him an email, but just thought I'd loop you in. Let me know if you can help at all.

Best,
Alex
